The Tokyo Independent says: -- We hear on good authority that the Government has already commenced with the fortification of Tsushina. This is an essentially wise step. Tsushima is an island of the utmost importance to this country, as it can, if properly fortified, command the seas between Korea, North-eastern China, and Japan. Hitherto, this fact has apparently been completely overlooked, as it was reported only the other day that Germany had made overtures to cession of Tsushima. The following letter to The Times rollites to the complaint that steamers often charge less London when clearing from Chinese ports :-"London, December 26th. Sir.—In your money article on the 23rd inst. you draw attention to the practice of steamers charging less freight to New York and the Continent than to London from China. This is a subject of considerable importance, not only to the trade immediately concerned, but to British commerce generally For some time this season in China, owing to the establishmen for a new German line, the 'Conference' stomers have been charging 21 12s. 6d. per ton oi40 feet for tea to Hamburg, while the same seamers would not accept less than £3 per top of 40 feet to London. steamers between Hamburg and London charge 6d: per ton, icluding forwarding commission. Is it possibe that the powerful companies. forming the 'Caference' in China have reflected that inither endeavour to rear a temporary advantage the are taking the first steps to alienate an imporant trade from English into German hands? I hope that this letter may, with your assistace, lead to an exchange of opinion on the salect.

3rd inst. The Japan Herald bids him farewell as follows:- "Signor M. Lanciarez leaves tomorrow for Shanghai per N. Y. K. steamer, and his departure from this will be a source of regret to all. No member of the diplomatic corps has made himself more popular here—both socially and officially—than has the gentleman who is now leaving. He first arrived here as Secretary of Legation in 1878, and from March, 1881, to January, 1885, he was Chargé d'Affaires, and when he anticipated a well-earned leave of absence, his acquaintance with the state of affairs here was too valuable to be lost, and he was retained as one of the Commissioners for the revision of the treaties, Signor Lanciarez now leaves this to replace Count F. do Luca, the Italian Minister to Peking, who goes home on leave. Sr. Lanciarez will, at the same time, be accredited to Korea and Siam. The departure. of the senior member of the diplomatic corps in Tokyo leaves a blank both socially and officially, which it will be hard to fill, and the many tokens recipient the estimation in which he is held, and the regret of all at his departure."

The Cathau Advertiser, in recording the death, after a few days' illness, of inflammation of the bowels, of Mr. Johannes Hartwig Leffmann, head of the firm of Messrs. Pustou & Co. at Shanghai, at the early age of 27, says:—To live well and die respected were the prominent features of his short career. Arriving in Shanghar when he had just attained manhood, h secured the respect and esteem of all those with whom he had business relations; and in social life, and as a lover of outdoor sports he endeared himself to all those with whom he came incontact. The sudden and untimely death of one so robust and energetic as a member of the Light Horse Brigade, a paper hunter, and a rider at the Races, has been deployed, and the respect shown to his memory by the numerous gathering of gentlemen who followed hi mortal remains to their last resting place at the New Cometery has perhaps never been surpassed in this cosmopolitan community. Mr. Leffmann was a Gorman, and his nationals demonstrated the respect in which he was held a truly noble manner. The little church at the Cemetery was crowded with residents. The Rev. F. R. Smith, of Trinity Cathedral, was the officiating clergyman, and delivered an address at the close of the service, after which the members of the German Liedertafel assembled round the coffin and sang a funeral dirge in a solemn and impressive manner.

THE LADIES' RECREATION CLUB V. HONG HONG CRICKET CLUB. Owing to the cold and wet weather on Chinese Now Year's day the match between the Bankers and Brokers and the Lawyers had to be given up. and at the commencement of the above match. the weather hardly looked more promising.

Three overs were bowled on Friday morning, and then rain steadily set in, and wicket was postponed till Saturday; rain fell throughout the night, and the ground was very soppy at 11, but the sun came out, and the pitch drying fast, a commencement was made shortly after noon. The bowling of the Cricket Club, especially Barff's, was very good, but the steady batting of Leach, Chater, and Coxon overpowered it, and the Ladies put together the fair total of 141 in their firstinnings. This was not an overwhelming score and the oricketers were not without hopes of beating it, but in this they failed miserably, no one making any stand against Travers and Leach except Grimble, who put together 15 in his usual style. The Club had then to follow their innings, and when the stumps were drawn they had lost 7 wickets for 65 runs, Wilson and Dunman doing best.

The fielding all round was good, but Leach was let off at the wicket early in his innings and Coxon in the long field.

Alarming rumours have been current recently oncerning the whereabouts of Mr. Jeremissen. olporteur, whose labours have of late been directed to that district of the island inhabited by the Li's or aborignes of Hainan. Later intelligence, however, assures us of the safety of

this gentleman. The want of reliable information, owing to the risk attending a visit to the interior, causes the condition of those turbulent mountaineers to remain somewhat shrouded in mystery. The Lis have, however, given the best possible proof that they will concede nothing that affects their independence, and they still continue to maintain an attitude of defiance. The Chinese authorities appear to take but little military measures to reduce them to submission, and consoquently the indifferently armed villagers living adjacent to these tribes suffer from their perio-

dical raids. Foreign imports are slowly increasing, but the manufacturing pre-eminence of England is closely pressed by Continental rivals, so that here, as well as at the larger outports, competition becomes every day keener.

The authorities have taken steps to open up mines in the interior; at present the work is entirely under Chinese control. A number of native miners have returned to the settlement suffering from the ill effects of the climate, and some of them are already being successfully treated by our local medico. H.B.M.S.
